Support Supplements

Dabicon Multivitamin for diabetics and weight-conscious adults. Fortified with 30 key ingredients including Vitamin B complex, to help with diabetic neuropathy; Inositol, Vanadium, Lycopene, Lutein and Chromium all may help with glucose metabolism; powerful support for the endocrine system.

Energize Multivitamin designed specifically for today's teens. Ingredients such as Magnesium, Vitamin A, C, Copper and Iron assist in muscle function and healthy skin; Calcium and Vitamin D optimizes bone strength; B-vitamins may assist in energy, focus and immune system.

Essentials Research-based multivitamin for men and post-menopausal women. High potency with Vitamins B, D, CO Q-10, Folic Acid; all ingredients combine to promote a healthy heart, and deliver complete energizing nutritional support.

Essentials for Women Comprehensive multivitamin formula designed for the female physiology. High in B Vitamins for energy, includes Iron, CO Q-10, Calcium Citrate; goes beyond minimal 100% Daily Values to deliver protective nutrient potencies for optimal health.

Pediarite Complete chewable multivitamin for children. No sugar, artificial colors, yeast, or preservatives; 21 essential ingredients formulated to meet the daily nutritional needs of a growing child.

Postnatal Multivitamin for expecting mothers. Higher doses of Iron, Folic Acid and Vitamin B complex assist against anemia; combating postpartum depression; Omega 3 fatty acids and several vitamins and minerals make a very complete and a unique supplement.

Prenatal Superior multivitamin[®] for mom and baby. Key ingredients such as folic acid, iron, DHA, zinc, choline, and Vitamin D support nervous and immune systems, enhance bone strength, and provide energy, while assisting in growth of the placenta and maternal organs.

Calcium Healthy bones formula. Helping to prevent osteoporosis by offering a full daily dose of Calcium Citrate, the most readily absorbed form of Calcium by the human body; supplemented with Vitamin D3 for added absorption of Calcium.

Cardiacare Heart Formula with omega 3 Fatty Acids and Folic Acid, along with complex vitamins help to lower homocysteine; designed to assist patients with heart disease or whom have risk factors, such as obesity, high blood pressure, and high cholesterol.

Joint Aid Healthy bones and joint formula. Pharmaceutical grade Glucosamine and Chondroitin, along with Vitamin D3, aids in relief of joint pain and swelling; promotes relief from arthritis and osteoporosis, and may help to increase joint flexibility.

Nephro Aid Kidney formula. B Complex vitamins and Folic Acid, along with other essential ingredients, help patients that have elevated homocysteine levels, and supports lowering of inflammation; high in Vitamin C making it an ideal formulation for dialysis patients, and often recommended for diabetics.

Nutricon Superior vision formula. Designed to slow the progression of macular degeneration, includes Vitamin C and E to help prevent cataracts and other age-related eye diseases. Other important nutrients include zinc, copper and selenium.

Prostaid Prostate formula. Omega-3 fatty acids support vascular function, and Vitamin C promotes a healthy immune system. Powerful antioxidants Vitamin E, selenium, and lycopene help fight free radical damage in the body.

Equalize Balancing menopause support. Essential nutrients such as black cohosh, flax seed, and isoflavones minimize symptoms of menopause. Assists in increasing overall organ and immune strength for optimum health and longevity.

Fat Loss Support Thermogenic formula. Fat Loss Support is designed to increase metabolic function by creating heat within the body using stimulants such as Guarana, allowing the body to burn the fat stored in this tissue.

Performance All natural male performance formula. Designed to help improve male sexual performance. L-Arginine helps stimulate and maintain an erection; yohimbe bark powder is an all natural aphrodisiac; Vitamin E and Tocopheryl Succinate help in vasodilation.

Probiotic Digestive support. Probiotics balance your intestinal health and boost your body's immune system; supplementing a healthy diet with a probiotic will likely result in improved digestion health and overall wellbeing.

Rejuvenate Healthy hair, skin and nails formula. Unique ingredients like biotin, amino acids, and antioxidants are essential vitamins to improve the condition of the hair, skin, and nails.

Sleep Aid Restful sleep formula. Ingredients such as melatonin are ideal for circadian (day/night) rhythms and regulate sleep patterns. Valerian root, chamomile, and hops flower, Vitamin B6, and Magnesium promote a good night's sleep.

Slenderize Powerful fat burner. A safe, effective supplement to help support weight loss, when combined with a healthy diet and exercise plan. Chromium picolinate, choline, L-carnitine, and inositol support fat metabolism and liver health.

Super Omega 3 High potency omega 3. Super Omega 3 contains EPA of 720 mg and DHA of 480 mg. Boosts heart health and lower triglycerides; may help rheumatoid arthritis, depression, skin conditions / anti-aging, and reduction of inflammation.

Vitalize Powerful antioxidants. Essential vitamins and minerals that work as powerful antioxidants to assist in higher levels of energy, and fighting free radical damage.

Vitamin D3 D3 veggie caps. Vitamin D3 helps to boost immune system, fight osteoporosis, maintain calcium balance in the body, and may contribute to promotion of brain and heart health, as well as assist in weight management.
